**Subject:** Double voters

**Importance:** High

Election Partners:

I know that most of the Auditors are away at a conference this week, but if any of you have the following information, I would be very grateful if you sent it to me. We are attempting to measure the effectiveness of the statewide voter registration database in identifying double voters.

Early in the year, we sent out a list of possible double voters to the applicable counties for research and resolution. Now I am asking for any results that you may have found.

1. How many double voters have you sent on to the county attorney for investigation and/or prosecution?
2. How many were identified through the VRDB?
3. How many were identified through your own research?
4. Were any prosecuted?
5. What were the results of any prosecution?

Thank you in advance for any and all information you can provide.

Pam
