Megan, not quite sure what happened here. She is assigned to the Sunset Hill Community Club polling place. Susan's name appeared in the poll book for her precinct- the poll workers must have missed her name on the list and assumed she was at the wrong polling place. She should not have been told that Sunset wasn't her polling place anymore. The poll workers are supposed to check a second list, called the "Captain's list", that lists all of the registered voters assigned to a polling place. Susan Paynter's name appears on this list as well. The system shows that she was credited with voting though, don't know if she voted a provisional ballot or what?

Subject: Quick question

Hi Nate,

Susan Paynter (registered voter, reporter) went to her polling place of 18+ years on EDay and she was told that it wasn't her polling place anymore.

Her address is **REDACTED**

Any idea why this happened?

Let me know what's up...

Megan

(Please have a good weekend and don't even look into this until Monday!)
